Catalog Designed by Creative Solutions Group, LLC
It all started 25 years ago in a 1600-square-foot workshop in Lancaster, PA. King Swings, a family owned and operated company, began designing, manufacturing, and installing swing sets. Today our production facility was swelled to 34,000 square feet. Made by some of the finest Amish craftsmen in the country, our swing sets will provide long hours of fun for your children and grandchildren.

We make sure our swing sets are safe. Built to support adult weight, the deck surfaces can bear up to 250 pounds and most rides up to 200 pounds (except plastic gliders). So parents, you can play along with your kids!

Swing sets are unmatched for aiding in children’s physical, mental, social and emotional development. Exercising in fresh air stimulates muscle growth, increases coordination, and develops the mind.

Thank you for choosing King Swing products. We’re confident you will not be disappointed.

WHAT GOES INTO OUR SWINGSETS

It all starts with discarded plastic. Yes that’s right, the same plastic you throw away after you drink a bottle of water. The compounds in that plastic is used to make the vinyl in our swingsets.

Rest assured, all our materials are environmentally friendly and we only use stainless steel hardware! The end result is one your entire family can enjoy.

We then cut and size lumber to provide strength and stability. We use "lifetime guaranteed preserved wood" and then cover it with a vinyl sleeve and caps to insure a maintenance free and splinter free finish. We use only the finest materials available.

Lifetime pressure treated lumber is inside vinyl sleeve.

CUSTOMER TESTIMONIAL

“We really appreciated the ability to custom design this swingset for our needs. We only had a small area available for it, and were able to put more action into that area than any other brand could. We would certainly deal with Kingswings again in the future.”
